

# Ensemble chi1-chi2 plots ZR18\_R3Cons\_em\_bcr3 (10 models)\*\*

cv = Circular Variance (low values signify high clustering of the data points). ☀ Accessible ☾ Buried  
 Gf = Average G-factor for the residue (the higher the value the more favourable the conformations) based on analysis of high-res. Xstal structures  
 Data points coloured according to G-factor: Favourable Unfavourable
